## [Docket No. 930650-3150]

ACTION: Notice.

Affirmation of Vertical Datum for Surveying and Mapping Activities

SUBAGENCY: National Ocean Service, Coast & Geodetic Survey, National Oceanic and Atmospheric Administration, DOC.

SUMMAY: This Notice announces a decision by the Federal Geodetic Control Subcommittee (FCCS) to affirm the North American Vertical Datum of 1988 (FAVD 86) as the official civilian vertical datum for surveying and mapping activities in the United States performed or financed by the Federal Covarment, and to the extent practicable, legally allowable, and feasible, require that all Federal

agencies using or producing vertical height information undertake an orderly transition to NAVD 88.

FOR FURTHER INFORMATION CONTACT: Mr. James E. Stem, N/CG1×4, SSMC3, Station 9357, National Geodetic Survey, NOAA, Silver Spring, Maryland 20910; telephone: 301–713–3230.

SUPPLEMENTARY REFORMATION: The Coast and Geodetic Survey (CASS), National Geodetic Survey (CASS), National Geodetic Survey (NGS), has completed the general adjustment portion of the NAYD 88 project, which includes approximately 80 percent of the previously published bench marks in the NGS data base. The remaining "postad" bench marks which comprise approximately 20 percent of the total will be published by October 1993. Regions of significant crustal motion will be analysized and published as

resources allow.

NAVD 88 supersedes the National
Geodetic Vertical Datum of 1929 (NGVD
29) which was the former official height
reference (vertical datum) for the United
States. NAVD 88 provides a modern,
improved vertical datum for the United
States, Canada, and Maxico. The NAVD
